

## **Save Public Access TV!**

In most communities, the noncommercial PEG TV channels deliver more original locally-made shows than all the commercial television stations combined. We need to protect localism in the media. Through PEG TV channels we learn about our current community's events and activities, and promote our own media based creativity.

We have channels that allow new artists to send in tapes for exposure they would never receive otherwise. Many PEG Channels provide coverage of local government that they could not get elsewhere. They provide noncommercial programming for seniors, for the disabled, for youth, multi-lingual programming for ethnic communities, and others that are often neglected by the commercial media.

Please do not allow the robber barons of the corporations destroy this democratic "marketplace of ideas" it plays a vital role in our lives and our democracy.

Sincerely,

Dee DeVille
